

# SRUTHIKA KRISHNAN

Bangalore, India | [sruthikrishnan307@gmail.com](mailto:sruthikrishnan307@gmail.com)

LinkedIn: [linkedin.com/in/sruthika-krishnan-33b108346](https://www.linkedin.com/in/sruthika-krishnan-33b108346) | GitHub: [github.com/sruthikrishnan307-collab](https://github.com/sruthikrishnan307-collab)

## CAREER OBJECTIVE

Motivated third-year B.Tech Computer Science student with strong fundamentals in Python, Data Structures, OOP, Analysis and Design of Algorithms (ADA), and problem solving. Seeking software development, web development, or data-focused internship opportunities to apply technical knowledge, build practical solutions, and gain industry experience.

## EDUCATION

### Bachelor of Technology (B.Tech) – Computer Science and Engineering

The Oxford College of Engineering, Bangalore

Expected Graduation: **2028**

**CGPA: 9.1 / 10**

## TECHNICAL SKILLS

|                               |                                                                                      |
|-------------------------------|--------------------------------------------------------------------------------------|
| <b>Programming:</b>           | Python, C, Java (Basics)                                                             |
| <b>Web &amp; Database:</b>    | HTML, CSS, JavaScript, PHP, MySQL                                                    |
| <b>Data &amp; Analytics:</b>  | Excel, Tableau, Jupyter Notebook                                                     |
| <b>Core CS Concepts:</b>      | Data Structures, OOP, Analysis & Design of Algorithms (ADA), Operating Systems, DBMS |
| <b>Tools &amp; Platforms:</b> | Git, GitHub, VS Code, Ubuntu, LaTeX                                                  |
| <b>Soft Skills:</b>           | Problem Solving, Logical Thinking, Team Collaboration, Communication                 |

## PROJECTS

### DBMS Movie Booking Website

**PHP • MySQL • HTML/CSS**

- Developed a database-oriented movie booking platform allowing users to browse listings, select showtimes, and book movies.
- Implemented relational database schemas, query optimization, and dynamic backend logic using PHP and MySQL.

### Text-to-Speech Application

**React • Flask • Python • gTTS**

- Built an end-to-end web application that synthesizes user-provided text into high-fidelity voice output.
- Created a modern, interactive frontend in React and integrated a Flask REST backend utilizing Google Text-to-Speech.

### Banking Application

**Java**

- Engineered a modular banking system utilizing core Object-Oriented Programming (OOP) paradigms and structured class hierarchies.
- Implemented custom exception handling, transaction logging, account management, and balance auditing operations.

### Python Mini Projects

**Python**

- Created structured programs leveraging iteration, functions, robust file I/O handling, and fundamental algorithmic logic.

## DATA ANALYTICS EXPERIENCE

### Deloitte Australia – Data Analytics Job Simulation (via Forage)

February 2026

- Completed a hands-on simulation tackling practical enterprise data analysis and forensic technology scenarios.
- Designed and structured interactive business intelligence dashboards using Tableau for forensic data visualization.
- Employed advanced Excel methodologies to classify complex datasets and draw actionable business conclusions.

## CERTIFICATIONS

- Oracle Agentic AI Foundations Associate** (2026)
- Oracle Cloud Infrastructure AI Foundation**

## KEY STRENGTHS & ACTIVITIES

- Ideathon Collaborator:** Team-based problem solving and innovation pitch.
- Academics & Logic:** 9.1 CGPA, quick learner, analytical reasoning & teamwork.
